Set of Three Terminal Tools and Handle for Removing Wires from Terminals Without Damage.

Terminal tools work on conventional terminals as well as Pack-Con and Weather-Pack terminals found on many GM vehicles. Blue terminal tool fits many Ford applications. The handle slips over the probes to protect the technician's hand as well as provide extra leverage. All terminal tools are available individually skin-packed.

Eliminate Damaged Wires and Terminals.

Lisle Wire Terminal Tools are designed to remove wires from terminals without damage to either. 56500 prongs depress the "barbs" on conventional terminals. 14900 is designed for Pack-Con and Weather-Pack terminals on GM C3 Systems. Tool can also retrieve trouble codes from engine computer on late model GM vehicles. 57780 fits many Ford applications.
