

64750 11 PC. BACK PROBE KIT
64900 17 PC. BACK PROBE KIT

Straight and Angled Back Probe Pins with Standard Banana Plug Connections.

Straight, 45°, and 90° back probe pins with 4mm standard female banana plug connectors. Angled probes for accessing hard-to-reach connectors. No need to disconnect the terminal and connector. Alligator clips with 4mm male banana connectors provide a connection to multimeter probes. The probes are fully insulated, providing added protection. 64750 contains .027 diameter pins. 64900 adds six .040 diameter pins. For use up to 30 volts.
