

PARTS CLEANING BRUSHES – for use in cleaning all engines and engine parts (truck, auto, aircraft, marine, farm), transmissions, brakes, gear boxes and other metal parts.

- Stiff, long-lasting Trialoy® polyester bristle shaped for maximum cleaning efficiency.
- Durable, injection molded handle with ribbed design for firm grip.
- Designed to be used in either solvent-based or water-based cleaning solutions.
- Contact us for special bulk private label quotes. We can use tan or black handles and several ferrule colors along with custom printing on most brushes.

DETAILING BRUSHES – *SoftTip* brushes for detailing vehicles, boats, aircraft and more.

89500 89510 BUCKET BRUSHES

ATLASTA®, ATLASTA® SoftTip Parts Washer and Detail Brush

“Bucket brushes” are designed for hand use in a parts washing sink or solvent container. Cleaning is achieved by pressing the solvent-filled Trialoy® bristles against the dirty surface. A tough brush that will last and last. 89510 is similar to our popular Atlasta® parts cleaning brush but with softer filament that won't scratch chrome or polished metal. Both have innovative bullet-shaped tips that resist mushrooming. Durable injection molded handle with ribbed design for firm grip. Long-lasting, stiff Trialoy® polyester filament can be used in either solvent- or water-based cleaning solutions.

89520 89530 89540 89550 89680 FLOW-THRU BRUSHES

ORIFLO®, ORIFLO® SoftTip, MULTIJET® are Flow-Thru Brushes Designed for Parts Washing Sinks with Circulating Solvent Systems.

Designed for industrial parts washers with solvent circulating pumps. 89520, 89530, 89540 ORIFLO® flow-thru parts washer brushes deliver a continuous stream of solvent through the bristle. 89530 includes a 28" Buna N (nitrile rubber) tube. 89550 MULTIJET® employs an additional ring of solvent jets to wash debris from the cleaning head. 89680 STRAIGHT SHOOTER incorporates a push button flow control valve. Bullet-shaped tip resists mushrooming. Durable, injection-molded handle with ribbed design for firm grip. Long-lasting, stiff Trialoy® polyester filament can be used in either solvent- or water-based cleaning solutions. Buna N is resistant to solvent-based cleaning solutions.
