

## LT148 Multi Piece Lock Out Kit

The LT148 is a three piece easy storage lock out kit. Super strong 1/4" connector sleeve for long lasting durability. The LT148-1B and LT148-1C have whale tail tip design. Use with or without vinyl tips. The LT148-1A handle works on lift buttons. This kit also includes Plastic Slip Jim (LT-100), two plastic door wedges (LT271) and Inflate-A-Wedge™ (LT275). Lifetime warranty. Rods made in USA.

**NEW PRODUCT**

## LT271 Plastic Door Wedge

Dual use. Safely separates the door panel from the vehicle window. Holds door window during window regulator work.

## LT275 Inflate-A-Wedge™

The unique Inflate-A-Wedge™ allows you to safely separate the door frame from the vehicle body to insert a tool and unlock a vehicle.

## LT276 Self Locking Door Wedge

The washboard design surface of wedge self locks in door. Will not slide out of door during unlocking. Great when inserting inflatable air wedges. Extra wide for extra leverage. Use it with or without on air wedge. Great for window regulator installation. Holds glass steady against window rubber stripping.

## LOCKOUT PICKS

### LT-290 European & Asian Rocker Lock Pick Set

A six piece set of rocker picks designed for European and Japanese vehicles. Not for use on transponder based anti-theft ignition systems.

### LT-310 Chrysler Automotive Rocker Lock Pick Set

A six piece pick set will open door & trunk locks and start Chrysler vehicles from 1969-1999, including tilt columns. Not for use with the Smart Key anti-theft ignition systems.

### LT-300 Ford Automotive Rocker Lock Pick Set

A five piece pick set opens door and trunk locks of Ford, Lincoln and Mercury cars, vans & trucks for model years 1969-1999. To start ignitions with 10-cut locks (1984 1/2 - 1996) use the LT-78. Not for use on transponder based passive anti-theft systems.

### LT-320 European & Asian Automotive Lock Pick Set

A six piece set designed for foreign wafer locks found in most Japanese and European vehicles. Includes Harpoon pick to remove broken keys from auto locks. Not for use on transponder based anti-theft ignition systems.
