

Cleaning & Oxidation Removal

Cleaning your boat's surface before waxing is the most important step to maximizing gloss and preparing the surface for wax. This is especially true for older or neglected surfaces as oxidation, swirls and scratches can degrade the surface, reducing gloss and inhibiting wax from adhering to provide lasting protection.

If your boat is not in like-new condition, waxing alone will not likely deliver the high quality and lasting results you are after.

RINSE FREE WASH-N-WAX

Boat, RV, Pontoon and PWC too dirty for a Detailer? No hose, bucket or water? No problem! Meguiar's® Rinse Free Wash-N-Wax safely lifts away dirt and grime while leaving behind a high gloss layer of hydrophobic wax. Safe on glass, plastic, instrument panels, polished metals, fiberglass, gelcoat, and clearcoat.

PART NUMBER	SIZE
M14332	32 oz.

GEL WASH

Rich, biodegradable* wash formula gently lifts boat scum, dirt, salt spray, grime, bird droppings and other loose contaminants without stripping wax protection. Sheeting action greatly reduces drying time.

*Detergents biodegradable per regulation EC No 648/2004.

PART NUMBER	SIZE
M5416	16 oz.
M5401	1 gallon

BOAT WASH

Safely removes grime and dirt without stripping wax protection. Biodegradable*, economy size wash produces long lasting suds with a refreshing scent.

*Detergents biodegradable per regulation EC No 648/2004.

PART NUMBER	SIZE
M4364	64 oz.

Start

M771 This step will save time and frustration by removing oxidation while washing that otherwise would have clogged your pads and slowed you down in later steps.

Light Oxidation

M44

For light oxidation, M44 Color Restorer is a gentle – yet effective – cleaner that will remove light oxidation and stains from fiberglass and gel coat while also restoring color and enhancing gloss in a single step.

Moderate Oxidation

M49

For moderate oxidation, M49 Oxidation Remover offers stronger cleaners to remove oxidation, water spots, stains and scratches from fiberglass and gel coat surfaces. Polishing agents also enhance color and gloss in a single step.

Severe Oxidation

M67& M91

For severe oxidation, users can either opt for M67 One Step Compound, which will remove heavy oxidation, scratches stains and tough water spots while leaving a glossy finish and improved color, or utilize M91 Power Cut Compound for the most aggressive approach and then follow with M45 High Gloss Polish to maximize gloss and color.

HEAVY OXIDATION SCRUB

Meguiar's® Heavy Oxidation Scrub is an excellent surface preparation solution for removing chalky oxidation, staining, rust, and mold to allow for optimized gel coat restoration. This water-soluble formulation rinses easily! *Detergents biodegradable per regulation (EC) No 648/2004.

PART NUMBER	SIZE
M17732	32 oz.

ONE STEP COMPOUND

This advanced aggressive, yet safe compound will clean and restore gloss to the gel coat surface in one step. Removes moderate to heavy oxidation, scratches, stains and tough water spots. Restores color and leaves a rich gloss on the treated surface. Incredible results by hand or machine.

PART NUMBER	SIZE
M6732	32 oz.

POWER CUT COMPOUND

Meguiar's® Power Cut Compound is a professional grade formula designed for the Professional detailer. Our fast cutting, low swirl compound removes sanding scratches and heavy oxidation without scouring the finish like traditional compounds. It is designed to offer speed and efficiency on Marine & RV fiberglass gel coat surfaces.

PART NUMBER	SIZE
M9132	32 oz.
