FIBER INDEX

Brass Wire	Soft metal bristle removes residues and corrosion from metal and coated parts.
China	Soft texture, naturally tapered to a fine end. Selected for use in automotive and window cleaning brushes because of its gentle removal of fine particles and the ability to reach into crevasses.
Horsehair	Used for the removal of fine dust and particles on smooth or highly polished surfaces without scratching.
Nylon	Long-wearing, resistant to rot, mildew, alkalis, most solvents and heat. Is softer and used for vehicle wash brushes.
Polypropylene	Durable bristle that resists heat, acids, solvents and chemicals. It is not affected by moisture or cleaning solvents. Great for scrub brushes.
Polystyrene	Durable bristle that resists water, oil and chemicals. It can be crimped for aggressive cleaning in scrub brushes and has excellent flexibility and durability. Ends can be flagged for fine body and wash brushes.
Stainless Steel Wire	Corrosion resistant, non-rusting metal is used where non-corrosive cleaning of parts with a cleaning compound is needed.
Steel Wire	Mild low-carbon steel galvanized to resist corrosion. Bright diamond drawn finish and high tensile strength spring temper for lower fatigue.
Natural Tampico	A vegetable fiber which comes from the Agave plant of Mexico. It has soft to medium texture and is highly resistant to liquids, solvents and heat. Fiber holds liquid well, creating great wash brush.
Palmyra	A cinnamon-color fiber obtained from the leaf stalk of a palm tree native to India. These stiff, durable fibers are excellent for scrubbing rough floor surfaces. Used in garage floor brushes, fender scrub brushes and much more. May be used wet or dry.
