ALUMINUM REPAIR HAMMER & DOLLY KIT

The Most Complete Hammer & Dolly Kit for Aluminum Repair

**Don't Be Fooled with Poor Quality Imported Copies.
Buy the Best, Buy Keysco!**

It is essential to keep aluminum and steel body repair tools separated to eliminate cross contamination and prevent the galvanic corrosion that destroys the painted finish. We have made it very easy to identify aluminum tools to aide in this prevention:

- **Highly polished hammer heads & spoon dolly are red**
 - **High quality hickory handles are branded**
 - **Steel dollies & slapping spoon are electro chemical marked**
 - **Rubber & bag dollies are printed with a long lasting ink**
-
- Heat treated and forged from high quality USA high carbon steel
 - One year warranty
 - Kit weights 14 lbs.

INCLUDES HIGH QUALITY FOAM ORGANIZER
