STEP 1. Assemble the main frame tubing using 1/4"-20 X 2" Bolts and 1/4" Flat Washers either while vertical or lying on the ground. **Note the locations of all punched holes** in all tubing to ensure proper assembly.

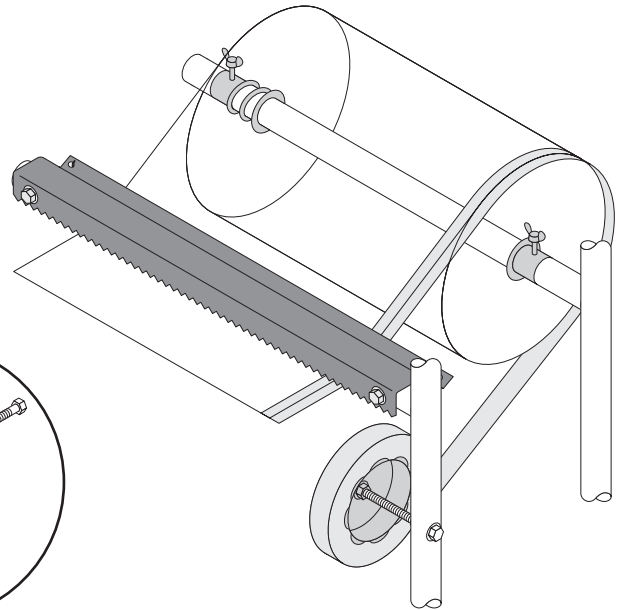

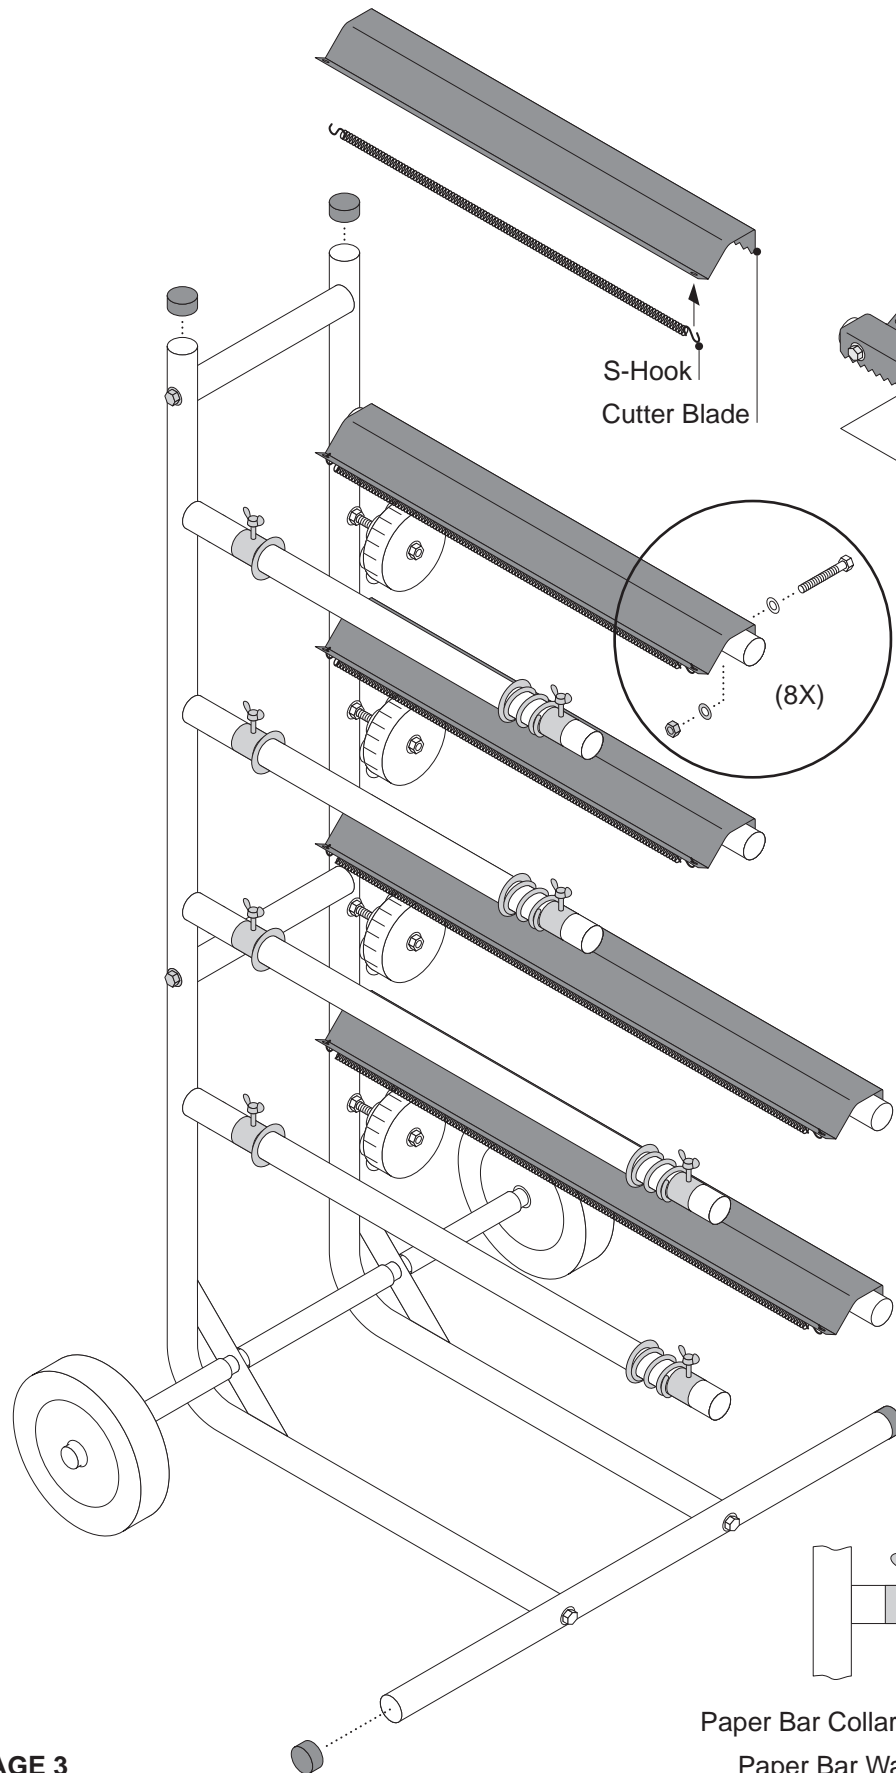

STEP 2. Assemble and install the Tape Spool assemblies.

STEP 3. Install Axle, Axle Covers, Wheels, and Hubcaps.

STEP 4. Install the Cutter Bar assemblies and Tubing Caps. First, attach the supplied S-Hooks to each end of the Extension Spring. Next, attach the Extension Spring to the **BOTTOM** of the Cutter Bar Blade. Lastly, you will use two 1/4"-20 X 1 1/2" Bolts, four 1/4" Flat Washers and two 1/4"-20 Hex Nuts to attach each Cutter Blade assembly onto the main frame tubing. **NOTE:** Ensure that the cutting edge is on the **OUTSIDE** and facing **DOWN** as shown and that the Extension Spring is **NOT** visible from the top.
