

## PROFESSIONAL REFRACTOMETER

Part No. 105

Requires just one drop to measure refractive index of solution. Tests anti-freeze (EG/PG) protection and battery electrolyte (state of charge). Features Fahrenheit and Centigrade scales for anti-freeze plus a scale showing degree of battery charge. Has calibration adjustment and adjustable focus. Includes small screwdriver, eye dropper and padded case.

## BATTERY TESTER

Part No. 115

Foolproof, dependable tester accurately tests state of charge within temperature extremes of  $-40^{\circ}$  to  $130^{\circ}$  F. Uses less than 1/4 oz. of acid. Easy to use. Easy to read.

## DISC-TYPE BATTERY TESTER

Part No. 117

Professional disc-type 16-1/4" tester is accurate down to  $-40^{\circ}$  F. Full size tester uses specific gravity and the number of floating discs to show state of charge. Accurate at all temperatures. Specific gravity levels are printed on the tough, see-through plastic body. Has one-piece rubber bulb, neoprene tip.
