

INTRODUCTION

Uni-ram holds many patents on designs used in its innovative products. Every machine is tested for compliance with Quality Assurance standards. Follow the directions in this manual to operate this machine safely and effectively. Not following these instructions can lead to malfunction or damage to the machine. Follow directions on labels attached to the machine and ensure that the manual is readily available to the operator at all times. If you have any questions about the operation of this machine, call your distributor or a Uni-ram Service Engineer:

SETUP

INSPECTION

- Report any transport damage immediately to the carrier and your vendor. Initiate a freight claim with the carrier. The manufacturer is not responsible for freight damage.
- Make sure the bag of accessories contains the following:
- Manual
- Kit-Plug, Guns w. Trigger Lock Springs, 2 pieces (Part No. 140-2340)
- Nozzle Adapters:
 - 110-430 Push-on, conventional systems only
 - 110-430PPS Push-on, disposable cup or conventional systems
- KIT-GCTOOLS Cleaning Tool kit

SPRAY GUN AND CUP

There are 2 nozzle adapters in the accessory bag. If you use a spray gun with a reusable cup, use the nozzle adapter 110-430PPS push-on, the adapter with the holes on the side of the tip of the nozzle adapter. If you use a conventional spray gun system use the nozzle adapter 110-430 or 110-430PPS. Select the one which fits better. The nozzle adapter goes over the nozzle at the bottom of the tank. See the photos in the section, Automatic Cleaning of Spray Guns and Cups.
