

12 AWG OFC Speaker Wire

- 7/41 x 0.12mm, wire construction
- With red line and ridges for polarity distinguishing
- Guarantees maximum audio signal transfer and high damping factor
- High-density, rope lay copper stranding for superior flexibility and transfer efficiency
- Durable, pliable clear PVC insulation withstands abuse

|------------------------------|---------------------------|
| Model Number | SKRL-12 |
| Physical Parameters | |
| Conductor Material | OFC (Oxygen Free Copper) |
| Conductor Diameter: | 2.73 mm ² |
| Conductor Stranding | 7 x 41 / 0.12 mm |
| Jacket Material: | PVC (Poly Vinyl Chloride) |
| Jacket Diameter: | 4.0/ 8.0 mm |
| Electrical Parameters | |
| Resistance: | 0.0053 Q / M at 20°C |
| Capacitance: | 73.42pF / M |
