

14 AWG OFC Speaker Wire

- 7/27 x 0.12mm, wire construction
- With red line and ridges for polarity distinguishing
- Guarantees maximum audio signal transfer and high damping factor
- High-density, rope lay copper stranding for superior flexibility and transfer efficiency
- Durable, pliable clear PVC insulation withstands abuse

Model Number	SKRL-14
Physical Parameters	
Conductor Material	OFC (Oxygen Free Copper)
Conductor Diameter:	2.20 mm ²
Conductor Stranding	7 x 27 / 0.12 mm
Jacket Material:	PVC (Poly Vinyl Chloride)
Jacket Diameter:	3.5/ 7.0 mm
Electrical Parameters	
Resistance:	0.0081 Q / M at 20°C
Capacitance:	46.52pF / M
