TrueStart® Hot Surface Igniters

*TrueStart® hot surface igniters have been
100% tested and approved.*

*TrueStart® hot surface igniters are completely reliable
right out of the package and are certified by CSA
for use in electrical equipment.*

TrueStart® universal hot surface igniters by DiversiTech are high quality replacements that fit hundreds of OEM components. TrueStart® universal igniters are durable and are designed to provide years of reliable service.

BUILT TO LAST

TrueStart® universal igniters are available in silicon nitride and silicon carbide models. Silicon nitride is a very durable ceramic that is high fracture and temperature resistant and has a long life expectancy. Silicon nitride is a longer lasting material that is also more shock resistant. Silicon carbide is a naturally high temperature resistant metal that has been the standard used in heating equipment for years.

JUST ONE REPLACES HUNDREDS

TrueStart® universal hot surface igniters feature a universal bracket kit that can be used to fit most all OEM furnaces. And TrueStart® hot surface igniters feature a unique universal electrical plug kit. This plug kit includes the most common crimp terminals and connector housings to fit the majority of OEM furnaces.

- ✓ *Durable ceramic material*
- ✓ *High thermal shock and chemical resistance*
- ✓ *Fracture resistant*
- ✓ *Long life*

LONG WARRANTY

Every TrueStart® universal igniter includes a generous warranty period to ensure your satisfaction. The warranty on silicon nitride models is 3 full years and the warranty for silicon carbide igniters is 18 months.

100% TESTED

TrueStart® universal hot surface igniters have been 100% tested and approved. TrueStart® hot surface igniters are completely reliable right out of the package and are certified by CSA for use in electrical equipment.

**Replaces
Hundreds
of OEM
Igniters**

Each TrueStart® universal igniter also includes:

A universal bracket kit for a fast, easy installation.

A universal electrical plug connection kit to simplify installation.

Color coded packaging.

Made in U.S.A.

Vent Termination Kits

Concentric vents and termination kits allow both intake for combustion air and the exhaust vent to pass through a standard roof or sidewall. This makes it easier to have a two-pipe installation for high efficiency furnaces. These vents simplify installation and only require one hole through the wall or roof where the pipes terminate. Without using these vents, the installation would require cutting two holes through the home, one for each pipe. These vents save time and money by reducing the amount of work required.

Horizontal vent kits for use in venting high efficiency fossil fuel appliances. The low profile kit hides the vent from view.

All Fittings included

DiversiTech's CVENT series concentric vent kit includes all fittings a contractor will need to install the vent. No additional fittings for outside connections are needed. Only piping from the vent kit to the furnace will need to be provided separately. Models are available for 2", 3" or 4" intake/vent systems.

Low profile

The low profile of the HVENT series product creates a neat look for the vent connection. The simple and clean looking vent hides both the intake and exhaust pipework. Models are available for 2" or 3" vent systems.

Flexible installation

The same CVENT series vent kit can be used in either a horizontal (through the wall) or vertical (through the roof) installation.

TRUESTART® HOT SURFACE IGNITERS

Wolverine® Universal Hot Surface Igniter

Wolverine® hot surface igniters feature protective, dynamic, and informative packaging. Wolverine® hot surface igniters are 100% tested and completely reliable. They are compatible with all OEM furnaces. Universal hot surface igniters allow a contractor to reduce truck stock and replace hundreds of OEM igniters with just one SKU.

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
IGN-2	Wolverine Hot Surface Igniter by TrueStart, Universal, Silicon Nitride	EA	6
IGN-2-6P	Wolverine Hot Surface Igniter by TrueStart, Universal, Silicon Nitride – Contractor Pack, pack of 6	PK	1

TrueStart™ Hot Surface Igniters

TrueStart® hot surface igniters feature protective, dynamic, and informative packaging. TrueStart® hot surface igniters are 100% tested and completely reliable. They are compatible with all OEM furnaces. TrueStart® hot surface igniters are available as direct replacement for OEM (silicon carbide) or as a universal igniter (silicone carbide or silicon nitride). Universal hot surface igniters allow a contractor to reduce truck stock and replace hundreds of OEM igniters with just one SKU.

CARBON MONOXIDE & SMOKE ALARMS

Carbon Monoxide Alarms

- 10 year sealed batteries provide continuous protection
- Microprocessor intelligence combined with electrochemical sensor virtually eliminates nuisance alarms
- Red LED indicates the status of power and CO
- Table top (free standing) or wall mounted. Mounting hardware included.
- Exceeds industry standards, ETL listed to UL Standard UL 2034 and California State Fire Marshal approved.
- 10 year limited warranty on both battery and alarm

CM-1000

CATALOG NO.	DESCRIPTION	UOM	ORDER MULTIPLE
CM-1000	Carbon Monoxide Smart Alarm	EA	1

Combination Carbon Monoxide and Smoke Alarms

- 3-in-1 alarm provides triple the protection with a single installation to protect against fires, carbon monoxide and natural gas
- 120-volt AC/DC hardwired alarm with backup battery is suitable for houses, apartments and mobile homes
- Mount the bracket to any standard wiring junction box and use the large mounting base to cover imperfections in drywall
- Features a quick activation pull-tab and a front-loading battery drawer for replacement without removing the alarm from the bracket
- Comes with a 7 year limited warranty
