

Wire Shelving Systems Finishes

# 4 FINISHES AVAILABLE

**Chrome** - is a plating process which deposits hard chrome over a cooper, nickel surface. This process is very durable and is used in storage or material handling applications in any dry storage environment. 1 year limited warranty to not rust or corrode when used in dry and non-humid environments.

**Stainless Steel** - 304 Stainless with an electropolish finish represents the highest industry standard in the prevention of corrosion. This finish is highly effective for corrosive, high humidity or clean room environments. Lifetime warranty for 304 stainless steel electropolish finish.

**Proform** - is an economical solution for high humidity or wet applications. The carbon steel is treated with a zinc phosphate base. A hybrid epoxy with an antibacterial agent is electrostatically applied over the treated surface. 15 year limited warranty for antimicrobial finish to not rust or corrode.  
**Color:** Light Green

**Black** - treated with an iron phosphate and the powder coated black epoxy is electrostatically applied, baked and cured to a hard surface. 10 year limited warranty for finish to not rust or corrode.
