

Sunlite 41562-SU Medium to Candelabra Base Socket Adapter, Use Candelabra Bulbs (E12) in Medium Base (E26) Fixtures, For Lamps, Ceiling Fixtures, Wall Sconces, 75 Watt Max, UL Listed 6 Pack White

DESCRIPTION:

The Sunlite Medium Base to Candelabra Base Adapter allows you to use E12 candelabra based bulbs in medium base socket fixtures. Easy to use, just twist the adapter into the fixture and screw the candelabra base bulb into the adapter. Low profile design adds minimum amount of height over the original bulb. Works with LED, incandescent, and CFL bulbs. Durable, plastic and aluminum construction. UL Listed. For use with up to 75 watt bulbs.

FEATURES:

- **MEDIUM BASE TO CANDELABRA** - Adapt your medium base fixtures for use with candelabra base (E12) bulbs.
- **EASY TO USE** - Just twist the adapter into the fixture and screw the candelabra base bulb into the adapter.
- **LOW PROFILE** - Low profile design adds minimum amount of height over the original bulb making it suitable for most fixtures.
- **VARIETY OF USES** - Use in lamps, wall or ceiling fixtures. Works with Candelabra base LED, incandescent, and CFL bulbs.
- **UL LISTED** - Tested to meet UL's strict safety and design standards. For use with up to 75 watt bulbs.
