

Par Series

Sunlite 81471 LED PAR30 Short Neck Colored Recessed Bug Light Bulb, 15 watt (75w Equivalent), Medium (E26) Base, Floodlight, ETL Listed, Yellow, 1 Count

Colored Series

DESCRIPTION:

Sunlite LED household lamps are extremely energy efficient and will help get your monthly energy costs down to their bare minimum. These lamps can last up to thirty times as long as incandescents thereby reducing the hassle of replacements. Sunlite LED lamps contain no mercury elements and do not release any hazardous gasses so, by using these lamps you get to do a little more to protect our environment and now you no longer need to worry about how to dispose of your bulb when a bulb breaks. Lamp recycling is now easy, not as with compact fluorescent lamps and its hazardous gasses. You won't lose out on light output or ambiance either; Sunlite LED bulbs deliver a high lumens-per-watt ratio and produce a bright, crisp light in a variety of colors. This Sunlite LED bulb features a medium base and can last up to 15,000 hours. It produces a vibrant yellow colored light. These LED PAR30 Colored Lamps will fit right into your living room or into the most cutting-edge, state of the art lighting design project.

FEATURES:

- **UPGRADE TO LED** - Replace inefficient halogen or CFL floodlight bulbs with energy saving LED bulbs from Sunlite. These cool to the touch bulbs feature standard PAR30 shape and medium base (E26)
- **ENERGY EFFICIENT** - These bulbs only use 8 watts of electricity and put out a vibrant yellow light that is equivalent to a 75 watt halogen bulb. Annual energy cost is a low \$0.96. (Based on 3 hours/day at \$0.11/kWh)
- **LONG LIFE** - With a 15,000 hour lamp life these bulbs will provide years of maintenance-free service. Replace hard to reach bulbs less often
- **INDOOR AND OUTDOOR USE** - These PAR30 bulbs are suitable for wet locations and are perfect for both indoor and outdoor applications. Use in recessed lighting cans, track lighting, landscape and other outdoor lighting fixtures that take medium base (E26) bulb. For use outdoors with fixtures and sockets rated for outdoor use only
- **BUG RESISTANT LIGHT** - Our yellow LED bulbs emit light at a wavelength that bugs can't see. By taking advantage of this difference between the human and insect eye, you can enjoy the same comfort and security that you would with white light, without the dreaded cloud of bugs flying around you and your fixture. You will also instantly see less bugs getting into your home

SPECIFICATIONS:

General Characteristics

Bulb Shape	PAR30
Nanometer	585-590
