

Ceiling Tile Bracket for Aruba 555

Front

Back

Ventev's robust Ceiling Tile Bracket is a simple and affordable solution for mounting Aruba 555 access points in indoor environments with ceiling tile ceilings such as offices, classrooms and lecture halls, and industrial manufacturing facilities. The bracket secures the access point on the tile, and frames the front of the AP for an aesthetically pleasing finish that blends with the environment. *Every Ventev mount is covered by the company's two-year TerraNet warranty program.*

SPECIFICATIONS

Sku:

295708

Product Number:

TW-CTBRKT-555

Dimensions:

Length 23.75 x Width 11.50 x Depth 2.96in
[603 x 292 x 75mm]

Construction:

Aluminum 5052, Powder coated outer frame for aesthetics

Weight:

1 lb.

FEATURES AND BENEFITS

- Low cost solution for mounting Aruba 555 APs on 2x2 ft or 2x4 ft ceiling tiles
- Simple design with minimal components allows rapid installation
- Robust, lightweight anti-corrosion aluminum construction
- Wider body channel allows uniform load distribution
- Outer frame surrounds the access point face and hides irregular cuts in the tile to provide a finished look
- Positive locking screws secure the access point in the frame
