

More Miles of Signal Create a Cell Zone™ in Your Car with zBoost

Designed for consumers, the **Wi-Ex cell phone signal booster** extends an in-vehicle Cell Zone for multiple users. The dual band unit captures the signal outside of your car and amplifies it on the inside for a better signal. It works with both 1900MHz and 800 MHz phones – almost all carriers and all phones (Not Nextel).

Easy installation - Package includes everything you need: The product consists of a bi-directional amplifier unit housed in a sturdy, lightweight ABS plastic enclosure that can be located under the seat or in the front console. The amplifier connects to the vehicle's 12V power through a supplied Cigarette Lighter Adaptor (CLA).

- Small bi-directional amplifier
- No physical connection to your phone
- 12V cigarette power adaptor
- External magnetic mount antenna with 15 ft cable

Benefits include:

- Reduces dropped calls and dead zones
- Extends cell phone range – up to 10 times the signal strength
- Improves signal strength for voice and data (except Nextel)
- Works with most phones and most carriers (except Nextel)
- Extends cell phone battery life
- Phone stays wireless – no direct wire to phone

Product Specifications:

Freq	TX: 824-849 MHz 1850-1910 MHz RX: 869-894 MHz 1930-1990 MHz
Gain	Up to 45 dB
Output Power	TX: 25dBm
Modulation	CDMA, GSM (Class V), TDMA and AMPS
Power source	12V adaptor
Weight	21 oz.
Amplifier Size	1.5"(D) x 4"(H) x 4"(W)
