

## The Iron Eagle® Exterior Coated Polyurethane On Nylon Suit Is Lightweight And Durable

Extremely comfortable and flexible, the Iron Eagle also has the durability to resist fats, oils, pine tars, gasoline, grease, and a variety of other chemicals. It is ideal for the toughest work conditions.

- Polyurethane on nylon jacket.
- Heat sealed seams are stronger than the material itself and can withstand extensive laundering.
- 2 mil exterior coating offers unbelievable snag and abrasion resistance.
- Therm-O-Rad sealed seams for 100% waterproof protection.
- Sleek coating is easy to decontaminate and great for shedding liquids.
- Heavy-duty snaps are guaranteed not to fail.
- Mildew resistant.

**Ideal Applications:** Food Processing, Meat Packing, Forestry, Agriculture, Petrochemical, and Nuclear Utilities.

Just because a suit is tough doesn't mean it has to be uncomfortable to wear.
