

MUDOX™ COMBINE CABLE TOWING KIT

Don't stay stuck in the mud with a MudOx™ Combine Cable Towing Kit! The only heavy-duty cable kit on the market designed specifically to be a safe solution to pull your combine out of the mud. Don't worry about getting stuck in the mud during harvest anymore, start saving time and money.

JOHN DEERE S/STS MUDOX™ COMBINE CABLE TOWING KIT

- Easy installation (view Installation Video online)
- Heavy-duty design and construction
- Used to pull a combine out of the mud
- Attaches to front axle at a lower pull point to pull combine out evenly (designed to help prevent damage to grain augers and other components)
- Conveniently hooks up to another piece of equipment to get unstuck
- Kit includes front pull bracket (2), 12 ton clevis (2), 1" cable (2), wire (2), rear bracket, cable stop (2), rear hanger (2), keeper pin (2), 14 ton long reach clevis and all mounting hardware
- Instructions included for easy install
