

Installation Guide

KM 1000 or KM 1003 Uni Pro Seat & Suspension in CIH 71-89, 92 & 93 Series Magnum Tractors with Original Air Suspensions (PN: 6555 or 6684)

KM 1000 or KM 1003 Uni Pro
PN: 7612 or 7915

Optional
Swivel Kit
Available
PN: 5003

1. Remove the original seat and suspension from the tractor by removing four 8mm bolts from S pedestal brackets on bottom of seat. Unplug 12v wire harness from original seat.
2. Bolt KM Uni Pro seat and suspension assembly to original S pedestal brackets using four 8mm x 16 mm bolts, flat washers and lock washers.
3. Locate power cable coming from lower part of suspension and connect to existing 12v harness in tractor (pigtail provided if needed).

NOTE: The seat is equipped with an Operator Presence Switch. If the tractor is not the OPS will not be used. The wire harness can be tied up and out of the way.
