

For the **Tru** Professional

UNIFORM CARE SUGGESTIONS

(For Applicable Home Laundering Uniform Products)

Please use these following home laundering suggestions to experience better color retention, better appearance, longer service cycles and the highest moisture management / anti-microbial attribute performance.

WASH IN COLD WATER:

Use cold water in home laundering when washing all uniform apparel.

WASH GARMENTS INSIDE OUT:

Turn all garments inside-out when home laundering.

AVOID DETERGENT WITH BLEACHES:

Use Detergent that does not contain built in bleaches.

AVOID FABRIC SOFTENERS ON PERFORMANCE APPAREL:

Wash without fabric softeners on wicking and anti-microbial (performance) apparel.

DRY ON "NO HEAT" OR "LOW HEAT" CYCLES:

Make sure the dryer is set on "No Heat" or "Low Heat" Settings.

DRY GARMENTS INSIDE-OUT:

Keep all garments turned inside-out during dryer cycle.

MAINTAIN LOW DRYER LOAD LEVELS:

Load dryer with very few garments to avoid garment-on-garment abrasion.

PROMPTLY REMOVE GARMENTS FROM DRYER:

Remove garments promptly after dryer cycle completion to avoid possible wrinkling.

***Dry Clean ONLY when Care Instructions specify to do so.**
