

# Color Choices

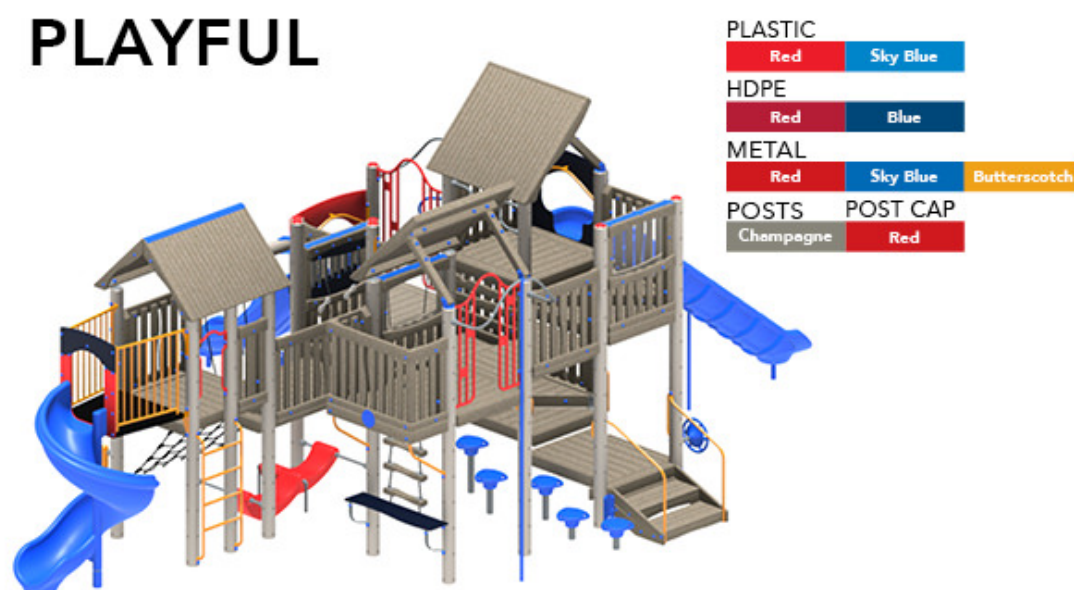

## The BigToys Color Philosophy:

A truth in material helps children better understand their surroundings. Our upright posts, decks, enclosures, and roofs are true to material, meaning they are a neutral material color. Metal posts are primed then powder coated in our signature pewter color to represent the look of metal. Conditioned wood retains a wood heirloom quality, and metal has a metallic sheen.

BigToys color choices offer a range of pleasing combinations that are attractive to kids and adults. Each color choice can be used on either conditioned wood or recycled metal and plastic structures. We also offer custom colors. Just ask your sales representative for more information.

## BigToys - color choices

(Structures shown with recycled metal & plastic material choice)
