Effective sweeping with rotating cleaning tools

Made in Germany

Wöhler Snap & Sweep® System

Professional cleaning in minutes

With the Wöhler Snap & Sweep®, you have the convenience of cleaning chimneys and pipes on your own, without requiring assistance from another person. Additionally, there are different cleaning attachments that can be easily attached to the rod. This means you are fully prepared for any situation you encounter. To ensure powerful cleaning, simply attach the cleaning attachment to your cordless screwdriver or drill and rotate it. Even stubborn soot build-up can be effectively removed using this method. When you need to extend the length of the rod, it's as simple as attaching additional rods in a matter of seconds. The Wöhler Snap & Sweep carrier bag is designed to keep your equipment clean during transport. It can also be spread out as a sheet to provide a clean surface for your tools while you work. This level of professionalism is sure to impress your customers.

Light Weight

Click Technology

Reliable

Stainless steel chimneys can be cleaned gently with the nylon wires.

Advantages

- ▶ One system – many applications: Free-standing stainless steel chimneys, large-volume chimneys, large air ducts, basic cleaning prior to refurbishment, removal of bird's nests
- ▶ Sturdy plastic plug-in connection – cleaning without damage even in stainless steel chimneys, air ducts
- ▶ Snap-in quick connectors for quick handling, even with gloves
- ▶ Gentle sweeping with brushes and nylon wires, powerful sweeping with chains
- ▶ One-man operation: You can easily do it all by yourself
- ▶ Rotary drive with standard cordless screwdriver
- ▶ The perfect rod length for every job
- ▶ Convenient and clean transport in the carrier bag
